SCOM-100 is a low cost, DIN rail mounted controller unit for alarm annunciation and remote control using SMS. The main unit incorporates a Quad Band (850/900/1800/1900MHz) GSM modem, 2 analog inputs, 4 digital inputs, 4 power relay outputs (250V/10A) and a serial RS-232 port. Front panel LED indicators monitor control and digital I/O states.

Simple setup and operation
All setup and control is done using your mobile phone. Simply insert a SIM card with your name and phone number in the phone list and press the start up button during power up!
